# Cactus grab

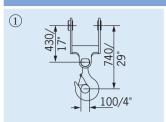

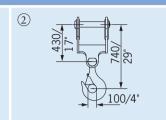

Capacity	0.4/0.6 m³ (0.5/0.78 yd³)
A	2020/2050 mm (79.5/80.7")
В	2030/2360 mm(79.9/92.9")
Weight:	
open	1250/1360 kg (2755/3000 lbs)
semi-open	1340/1490 kg (2960/3290 lbs)
closed	1370/1540 kg (3020/3400 lbs)
Grabs with quick-mount s	uspension: total weight increased
by 40 kg (88.2 lbs).	

# Magnet hydraulically slewable

### Load hook

(1)	Rigid	or	sle	ewa	ble	suspension
4	Kigiu	OI	310	vva	DIC	suspension

Permissible lifting capacity	10 t (22,000 lbs)
Weight	100 kg (220 lbs)
2) Rigid or slewable quick-mount sus	pension
Permissible lifting capacity	10 t (22,000 lbs)
Weight	150 kg (330 lbs)

# Loading machine MHL 320

machine designed for use at recycling plants & scrap yards

Triple cooling system with lateral air intake

Reversible fan (Option)

Two options for undercarriage

Powerful engine

Engine output 84 kW

Operating weight

19 t (41,900 lbs)

Grab capacities

0.4 – 0.6 m³

(0.52 – 0.78 cu.yd.)

The FUCHS-TEREX

**Technical Specifications Transport weights and dimensions** 

# O Diesel engine

Manufacturer & type ...... Deutz-BF4M 2012 C Design ...... 4-cylinder, turbocharged, after cooled. Cooling system ...... liquid Emission standards ...... COM 1 & EPA 1 

### Electrical system

Lighting ...... 2 uppercarriage-mounted headlamps, 1 dipperstick-mounted working floodlight. 

### [ ○ Travel drive

Hydrostatic transmission through variable displacement motor with directly mounted travel brake valve.

Max. gradeability ...... 55% 

#### **I→** Undercarriage

Front axle ...... Planetary axle with integrated drum brake, rigidly mounted. Max. steering angle 30°. Rear axle ...... Planetary axle with integrated drum brake, oscillating, with oscillating axle lock to be engaged if required.

Outrigger options ...... 4-point outriggers, 2-point outriggers and support blade.

#### (C) Brakes

Service brake ...... Hydraulic single-circuit braking system acting on all four wheel pairs.

Parking brake ...... Hydraulic disc brake on transmission

elastic tires.

Single circuit hydraulic system with load-sensing function and torque control valve for torque-controlled swing drive independent from other consumers.

Pump capacity ....... 290 l/min (77 US gal./min)(at 2,000 rpm) Separate oil radiator with large cooling surface.

Hydraulic oil filter ...... Filter element incorporated in oil tank.

#### □ Cab

Cab ..... Ergonomically shaped driver's cab with functional design and good all-round visibility; infinitely variable, hydraulically height-adjustable cab with max. eve level of 4.8 m (15'9").

Driver's seat ...... Mechanically cushioned comfort seat with safety belt, multi-adjustable to suit any driver.

Heating ..... infinitely variable hotwater heating with 3-speed fan.

Option ...... Air-cushioned comfort seat with integrated headrest, air conditioning.

# Swing system

Ring gear ..... internally toothed ring gear Drive ...... 2-stage planetary gear with integrated multi-disc brake.

Uppercarriage swing speed ...... 0-8 rpm

### Option: Reversible fan

Reversible intake direction: engine fan for 20 seconds; oil radiator for 15 seconds; pre-selection through rotary switch; advantage: longer machine operating time within dusty environments.

Cactus grab with cast central case and enclosed swing drive. Grab jaws with wear-resistant grab liners and tips.

### Safety equipment

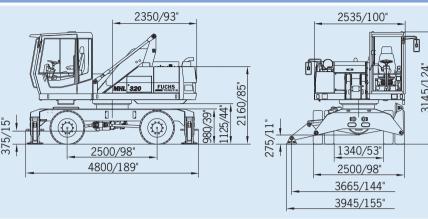

Required when machine is used for crane operations according to EN 474-5. Protection of cab ensured by work equipment operating range limit.

### CE Homologation

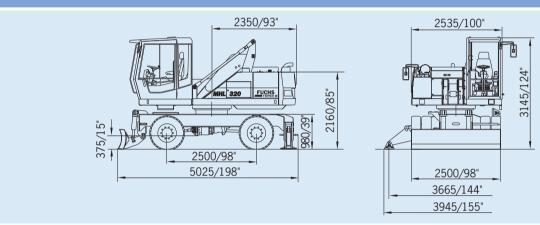

The machine has CE-approval (confirmed by German Civil Engineering Trade Association) and complies with European harmonized standards and draft standards.

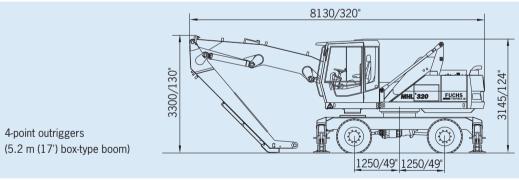

Sound power level (guaranteed) ...... LW<sub>(A)</sub>= 102 dB (A) Sound pressure level ......  $LP_{(A)} = 75 dB (A)$ (Measurement method RL 2000/14/EG)

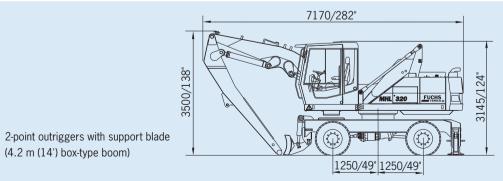

# Dimensions with 4-point outriggers

### Dimensions with 2-point outriggers and support blade (support blade on steering axle)

Operating weights:

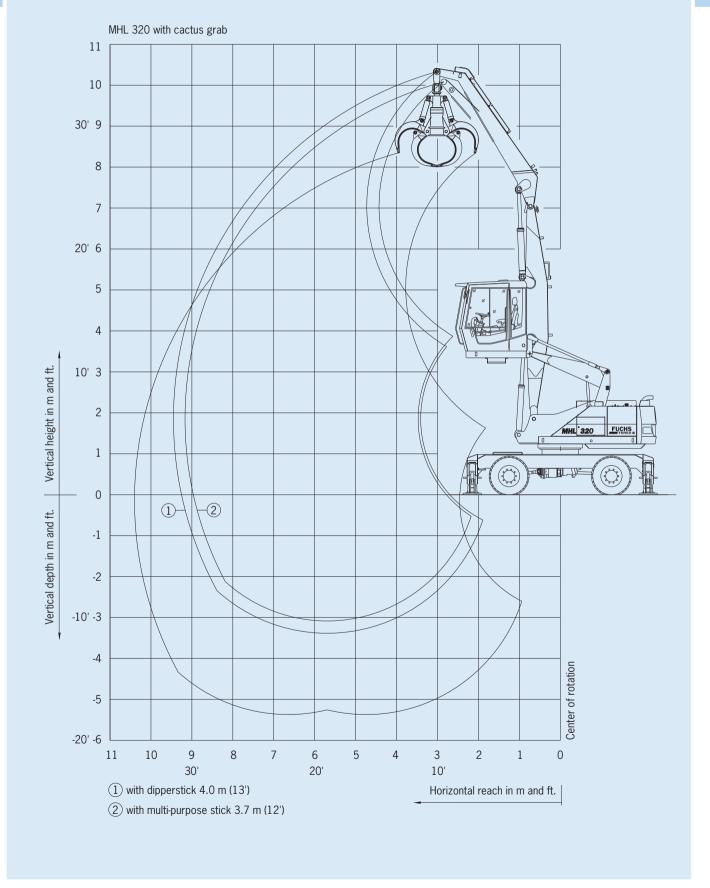

(4.2 m (14') box-type boom)

Undercarriage with 4-point outriggers, loader installation and 

Undercarriage with 2-point outriggers, support blade, loader installation and 0.4 m<sup>3</sup> (0.52 cu.yd.) cactus grab ...... 

Working diagram Carrying capacity

Work equipment: 5.2 m (17') box-type boom, 4.0 m (13') dipperstick or 3.7 m (12') multi-purpose stick, 9.5 m (31') reach

The values are stated in tons (t) or lbs. The pump pressure for this table is 360 bar/5220 psi. The values amount to 75 % of the static tipping load or 87 % of the hydraulic lifting force, in accordance with ISO 10567 (marked\*).

When the machine is standing on solid and level ground, these values apply to slewing operations through 360°. The values in brackets apply in the lengthwise direction of the undercarriage. The values specified "outriggers up" only apply when the load is hoisted above the front or rear axle.

The weight of the attached load hoisting implement (grab, magnet, load hook, linkage, bucket cylinder, etc.) must be deducted from the carrying capacity values. The weight for the linkage and bucket cylinder is 200 kg (440 lb).

In accordance with EC guidelines, hose-rupture safety valves on the lift cylinders and an overload warning device are required for crane operations. Working diagram Carrying capacity
