

HT15 PRO

EXCAVATOR PARAMETER

Technical specification

Transportation length:2300mm	Maximum digging height:2690mm
Total width:930mm	Maximum unloading height:1825mm
Upper width:990mm	Maximum digging depth:1710mm
Overall height (cab roof):2270mm	Maximum digging distance:2920mm
Standard track plate width:180mm	Minimum turning radius:1500mm
Track gauge:750mm	Maximum height at minimum turning radius:2100mm
Shovel height above ground:110mm	
Depth of excavation of bulldozer:200mm	Working quality:1050kg
Tail turning radius:800mm	Bucket capacity:0.02m ³
Track ground length:890mm	Working device form:backhoe
Track length:1235mm	Climbing capacity:30°
Engine:Koop/Briggs & Stratton
